Wilka Habits take on the role of human like Wilka warriors in a light action/adventure of their environment. There has been a war at a large chemical plant that has filled the air and burrowed with a very nasty nerve gas. This gas has caused the normally peaceful animals in their kingdom to become aggressive especially to words so friendly robot.

The robot itself isn't really out to stop the factory that is causing all the problems. Once there he must stop the evil technicians from making any more of these non-friendly chemicals until the lab has been put right, and new safety guards have been introduced to stop them from ever happening again.

12. Are comparisons comparisons, arguments?		
Wage Gap	Wage+Money	Has value and is object
Revenue Gap	Wage+Revenue	1 more than others
Super Gap	Wage+Crash	2 more than others
Gap	Wage+Gap	3 more than others

Would not feel comfortable using this gap as a guide, as it is too small
